on the back of  
this flyer!**

Adrenoleukodystrophy (ALD) is a rare, genetic disease for which there is no effective treatment or cure. It manifests primarily in males, and often progresses rapidly -- boys and young men who are affected typically lose all cognitive, mental and physical functions, and deteriorate into a vegetative state leading to death in two to three years. All of the proceeds of the Bowl for ALD will benefit the Kennedy Krieger Institute, a non-profit hospital dedicated to treating, preventing and ultimately curing ALD and other neurogenetic diseases.

**SPONSORSHIP OPPORTUNITIES ALSO AVAILABLE!**
